

School council meeting 18th June 2026

Attendees:

Mrs Weretelnikow, Bea, Charlie, Jorgi, Harry, Kaiden, Isla, Sienna, Ralph, Leo, Alyssa

Agenda:

1. Welcome
2. Findings from 'Waste Less Food Week'
3. Conclusion and suggestions

1. Welcome:

Welcome to our school council meeting.

2. Findings from 'Waste Less Food Week'

Following 'Waste Less Food Week', we discussed the survey that we did and looked at the daily findings. We worked together to tally up the findings for each reason for pupils not eating their food. We found that there was around 50% of pupils eating all of their dinner and 50% of pupils wasting some of their food. We found that the main reasons for pupils not eating their food were that they were too full or didn't like something.

3. Conclusion and suggestions

Following our findings, we discussed what we could suggest to pupils to ensure we waste less food. School council members suggested for pupils to think about how hungry they were before deciding what and how much they want to eat. They also suggested that if pupils were trying something new, they get a little bit to try and then get more if they like it, rather than wasting if they don't like it.
