

Half Term

Challenge - The Seasons!!!

We learn about the seasons all through the year by observing how our environment changes.

We would love you to design, draw, make or paint a picture to represent the seasons.

You can choose to design a poster all about your favourite season or you may want to split your masterpiece into four sections, one for each season.

When you are designing your work, you might want to think about the following:

- What months are in each season?
- How does the weather feel?
- What clothes do you need to wear?
- What do you observe about the plants and trees at that time of year?
- What activities can you do in that season? E.g. can you go sledding in the summer?
- What animals might you see? E.g. lambs in the spring.
- What do some animals do in the winter months?

Remember to label your diagrams clearly and think carefully about how you record your information.

Children who complete the half term challenge will receive a certificate at the start of next term to celebrate their hard work and effort at home!

Most of all - have fun!!

Happy Easter!!
